The 2018 model will encompass the following changes:

- ◆ Update to reflect the 2018 benefit structure
- ◆ Updates to the data years used to calibrate the model
- ◆ Recalibration of the model for payment year 2018 using diagnoses from FFS and MA-PD beneficiaries enrolled in a Part D plan to predict 2015 expenditures
- ◆ Factor changes

Encounter Data as a Diagnoses Source for 2018

CMS proposes the 2018 risk score will maintain the same blending and weighting as PY 2017:
