On June 3, 2014, CMS announced revisions to the risk score payment run schedules affecting Medicare Advantage organizations, PACE organizations, and certain Demonstrations, Part D Sponsors. The change from previous years will be the months in which CMS will make updates to reflect Mid-Year and Final risk scores.

- **Final risk scores for Payment Year 2013 (2012 dates of services) will now be reflected in the July 2014 payment**
- **Mid-Year risk scores for Payment Year 2014 (2013 dates of service) will now be reflected in the August 2014 payment**

We reached out to CMS to see if the revised payment for 2014 (2013 dates of service) will start with the July monthly payment and if plans can expect the 6 month retro payment (January-June) in August, or, if plans can expect a 7 month retro payment (January-July) in August along with the August monthly payment. The answer from CMS is still pending but Cognisight will update you as soon as we hear back. □

Cognisight, TMLLC is a leading health care solutions provider, specializing in risk adjustment services for Medicare Advantage, Medicaid Managed Care, PACE plans, and Issuers on and off the Health Insurance Exchange. Our mission is simple: capture the most accurate and complete information to help ensure our clients have the best information to care for their members.

As HCC risk adjustment experts, we enable our clients to improve the quality of health care they deliver while maximizing efficiency and assuring accurate revenue. Our continuum of comprehensive risk adjustment services include:

- Analytics
- Member Completed HRA's
- In-Home Prospective Assessments
- Retrospective/Concurrent Chart Reviews
- Risk Verification
- RADV Support
- Provider & Coder Training
